Let's Rediscover Japan & World

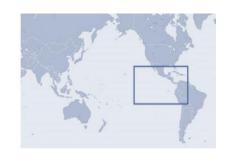

Guest Speaker: Ms. Irene Zamora

El Salvador's people and diaspora: What makes a small country so immense?

キゅラキラ 中央アメリカに位置し、面積こそ小さいものの「力強い」国、エルサルバドル共和国の特徴や人々の精神について 英語でスピーチしていただきます。

Summary:

El Salvador is the smallest of all the Central American countries. Often less known than its neighbors, this small country is mighty because of the spirit of its people. About one quarter of Salvadorans live abroad, most of them in United States, Canada, Australia, and Mexico, but you can probably find a Salvadoran in every country in the world. One of our main characteristics is our resilience and hard work. How did Salvadorans earn that reputation? Let's discover what makes a small country so immense.

Speaker's Profile:

After working for some years in the private sector and in the public sector in El Salvador, Irene moved to Japan in 2010 to do a master's course in Economics. Later she pursued her doctoral studies in her passion: the Human Resources field. Irene, as well as her two siblings, is part of the Salvadoran diaspora around the world who maintain a close connection to the country, remaining active members of the Salvadoran economy and society.
